DETAILED ACTION

Decision on Appeal

1. The decision by the Board of Appeals is that the Examiner was REVERSED and a new ground of rejection was entered. Below are the new grounds of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following regarding the rejection is copied directly from the pages 6 and 7 of the Board of Appeals Decision, filed on 10/31/07:

"Claims 1-28 are rejected under 35 U.S.C. 112, second paragraph, for failing to particularly point out and distinctly claim the invention that Appellant regards as the invention. In claim 1, the language "using high speed imaging" in lines 3 and 4, "high speed image" in line 6, and "the acquired high speed image" in line 7 do not particularly point out and distinctly claim the invention because it is unclear what the metes and

bounds of a "high speed image" is from Appellant's Specification. *SeattleBox Co. v. Industrial Crating & Packing, Inc.*, 731 F.2d 818, 826, 221 USPQ 568, 574 (Fed. Cir. 1984) ("When a word of degree is used the district court must determine whether the patent's specification provides some standard for measuring said degree. The trial court must decide, that is, whether one of ordinary skill in the art would understand what is claimed when the claim is read in light of the specification."). Here, we find no express definitions of "high speed imaging" or of an "acquired high speed image" to differentiate those claim limitations from the prior art. Therefore, we are unable to determine the metes and bounds of each of independent claims 1, 9, 15, and 23 and their respective dependent claims. As a result, we cannot effectively apply prior art thereto.

This decision contains a new ground of rejection pursuant to 37 C.F.R. § 41.50(b) (2007). 37 C.F.R. § 41.50(b) provides that "[a] new ground of rejection... shall not be considered final for judicial review."

37 C.F.R. § 41.50(b) also provides that the Appellants, WITHIN TWO MONTHS FROM THE DATE OF THE DECISION, must exercise one of the following two options with respect to the new ground of rejection to avoid termination of the appeal as to the rejected claims:

(1) *Reopen prosecution.* Submit an appropriate amendment of the claims so rejected or new evidence relating to the claims so rejected, or both, and have the matter reconsidered by the

examiner. in which event the
proceeding will be remanded to the
examiner

(2) *Request rehearing.* Request that
the proceeding be reheard under
§ 41.52 by the Board upon the same
record”
